

I want to come home. (Robert Nilsson)

You never tell me that you love me
You never give me some joy
You never give me some lovin
You never give me some hugs

You leaved me every morning
Came back late at night
You never loved me
You took all my pride

I want to come home

You took my children
you took my wife
You took all my money
You took my life
You took my feelings
You stole my faith
You took my darlings'
You stole my time

I want to come home

You took my children
you took my wife
You took all my money
You took my life

I'm coming home
I'm coming for you
I'm soon at home
So you better move on

How how how how

ROBERT NILSSON I Wanna Come
