

When my first wife left me  
You know, the woman that put me on the road  
When my first wife left me  
You know, the woman that put me on the Highway  
Ever since that day, people  
My life haven't been the same

When my first wife left me  
You know, the woman that put me on the road  
When my first wife left me  
You know, the woman that put me on the Highway  
Ever since that day, people  
My life haven't been the same

I've been drinking and gambling  
I've been drinking and gambling, boy  
I've been drinking and gambling  
I've been drinking and gambling, boy  
Lord, my life haven't been the same  
Ever since I been gone.

When my first wife left me  
You know, the woman that put me on the road  
When my first wife left me  
You know, the woman that put me on the Highway  
Ever since that day, people  
My life haven't been the same  
I've been drinking and gambling

I've been drinking and gambling, boy  
I've been drinking and gambling  
I've been drinking and gambling, boy  
my life haven't been the same  
Ever since I been gone.

When my first wife left me  
You know, the woman that put me on the road  
When my first wife left me  
You know, the woman that put me on the Highway  
Ever since that day, people  
Lord, My life haven't been the same  
My life haven't been the same  
She left me
