

Press Release “When My First Wife Left Me”

“When My First Wife Left Me” will initially be released digitally and is expected to be available for download and streaming on the most popular online services from June 2 2021.

“When My First Wife Left Me” is an interpretation by Nilsson of the John Lee Hooker' song with the same name, recorded in 1961, and is the third single from a series of Country & Blues tracks that will culminate in an album releasing autumn of 2021 in which I pay tribute to my musical role models and my roots, which have enriched my musical life. Music captured my mind at a very young age and set me on the path to becoming a performing artist and, later, a hopeful composer trying to follow in the footsteps of the great masters.

I hope you like this little piece of music that has given me so much joy to create.

Music is my life and surprises me every day with new inspirations and inventions.

I would like to thank you, my family, friends, and all the musicians who have supported me through this travel. None of us got to where we are alone.
